

Math and Science Leadership Camp

*Hosted by the Mississippi School for Math & Science
July 18 - 23, 2010*

The Math and Science Camp provides an opportunity for 40 rising 9th and 10th grade young men to spend a week on the campus of the Mississippi School for Mathematics and Science involved in hands-on, project-based learning experiences that further develop their math and science skills, improve their test-taking abilities, and prepare them to compete more effectively within their peer groups. This experience is designed for students who excel in mathematics and science and are interested in careers in the fields of science, mathematics, engineering, and technology. Planned activities include engineering competitions, creative test-taking strategies, a ropes course, and a field trip to MSU's Center for Advanced Vehicular Studies, High Performance Computer, and the "CAVE."

The camp is offered at NO COST to the participant (other than a \$25 registration fee due once an applicant is selected). Room and board, food, supplies, and all materials used are provided. Participants must furnish their own linens and toiletry items. All participants will be housed in MSMS residential housing on the MUW/MSMS campus in Columbus. All meals will be served in the MUW cafeteria (excluding special functions). Each student must provide his own transportation to and from the camp. *Due to planned renovations, only one MSMS residence hall is available this summer. As a result, this year's camp is being limited to boys. We look forward to having both halls available next year and being able to offer the camp to both male and female applicants.*

Students, after completing your portion of the application, please place the application and essays in one envelope, and mail to:

MSMS Math and Science Camp
Attention: Shelia Horton
1100 College St., MUW-1627
Columbus, MS 39701

You will also need to provide copies of the application recommendation page to your counselor and math teacher, asking them to complete and return the forms by mail or fax (662-329-8570).

All applications must be received by Friday, **May 7, 2010**, to be considered. Acceptance notices will be mailed within 2 weeks of the application closing. Students who are selected will be asked to pay a \$25 deposit to hold their places for the Math and Science Camp.
